Skills

- JavaScript, TypeScript, ReactJS, NextJS
 - TailwindCSS, styled-components, MUI, Ant Design,
 - React Hooks, Context API, REST API, Socket.io, Firebase
 - Redux, Zustand, React Query, RTK Query, Lodash
 - Git, GitHub, GitLab
-

Experience

Pharmaceutical Development Agency / Frontend Developer

FEBRUARY 2024 - PRESENT, TASHKENT

- Built scalable and reusable UI components using React, TypeScript, and TailwindCSS, ensuring consistent design and development standards across projects.
- Developed custom React hooks and utility functions for clean, modular, and testable code.
- Integrated REST APIs, eSign digital signature system, and OneID authentication, enhancing security and user verification processes.
- Designed and maintained API configuration layers using tools like React Query, RTK Query, and Axios, supporting type-safe and efficient data fetching.
- Applied state management solutions such as Redux Toolkit, Zustand, and Context API, depending on app complexity and requirements.
- Collaborated with cross-functional teams to ensure seamless deployments using Git, GitHub, and GitLab, and actively contributed to code reviews and optimization tasks.
- Led efforts on performance improvements and refactoring, reducing bundle sizes and improving initial load times across multiple web apps.

Najot Ta'lim / Frontend Mentor

NOVEMBER 2022 - DECEMBER 2024, TASHKENT

- Teach frontend development with a focus on real-world skills
- Page 1 of 2- Created an 8-month structured learning program
- Trained 200+ students, helping them reach junior developer level and beyond

Kesh Trade / Frontend Developer

MAY 2022 - NOVEMBER 2022, SHAKHRISABZ

- Build frontend interfaces and SPAs using React and APIs
- Develop full-stack web apps with the MERN stack
- Work on CRM and ERP systems with a strong focus on business logic
- Handle UI implementation, code reviews, and debugging

Dev Zone / Frontend Developer

APRIL 2021 - MAY 2022, TASHKENT

- Develop responsive SPAs and frontend interfaces using React and APIs
- Build full-stack web applications with the MERN stack
- Handle UI implementation, code reviews, and debugging

Team Pro / Frontend Developer

SEPTEMBER 2020 - APRIL 2021, TASHKENT

- Develop marketplace applications with modern web technologies
- Build web applications and websites tailored to user needs
- Create single-page applications (SPAs) using React.js

Projects

GxP Admin Dashboard

React / TypeScript / TailwindCSS / AntDesign / Styled-components / ...

- Built a secure local dashboard to support GxP applications and streamline inspections.

Pharm Portal

React / TypeScript / TailwindCSS / AntDesign / Styled-components / ...

- Developed a multi-service platform for the pharmaceutical industry, supporting various internal and external services.

SRMS - Student Record Management System

NextJs / TypeScript / Styled-components / Material UI / Redux-toolkit / ...

- Built a custom system to manage student records, academic data, and streamline administrative tasks.

Application and HRM Admin Dashboard

React / JavaScript / Styled-components / Material UI / Redux-toolkit / ...

- Created a centralized dashboard for managing job applications and human resources workflows.

PTU Website & Admin Panel

React / JavaScript / Styled-components / Material UI / Redux-toolkit / ...

- Designed and developed the official university site and its admin panel to manage content and internal workflows.

EduOn - Online Education Platform

React / Typescript / Styled-components / Material UI / Redux-toolkit / ...

- Contributed to a scalable platform for delivering online courses and managing student progress.

Kesh Trade Website & ERP

React / TypeScript / TailwindCSS / AntDesign / Styled-components / ...

- Developed a company website and ERP system for managing sales, customer interactions, and internal data.

YerElektron Kadastr Platform & ERP

React / TypeScript / TailwindCSS / Material UI / Redux-Toolkit / ...

- Built a digital platform for land registration with an integrated ERP for managing operations and user requests.

Profi24 Admin Panel

React / TypeScript / TailwindCSS / Material UI / Redux-Toolkit / ...

- Developed a dashboard for managing service providers and customers in a professional services marketplace.

MyMocks - Online IELTS Testing Platform

React / TypeScript / TailwindCSS / Material UI / Redux-Toolkit / ...

- Designed and developed a responsive web platform for IELTS mock tests with automated result evaluation.
